Community Needs Assessment: Crawford, Perry, and Spencer Counties

**10d. The public at large is adequately aware of services provided by our local Community Action Agency (CAA).**

## Community Needs Assessment: Crawford, Perry, and Spencer Counties

### 11a. What do you perceive are the primary barriers associated with the provision of human services in your county or counties served?

Communication of services available.

Community Recognition of the need and Community Involvement

Education

Financial education

funding

Funding

Funding. Access. Transportation

Funds

Lack of access

Lack of knowledge of available assistance

Lack of permanent solutions that would create lasting impact to raise individuals and families out of poverty; i.e. jobs and personal skills, habits, and motivation that create independence and self-sufficiency.

Lack of resources and funding

Many people do not realize the need in the county

not enough mental health services and services for drug addiction

Not enough services

Public awareness

rural community

Some of the services are not very well advertised.

Transportation

Transportation is a huge barrier for our low income residents. Case management is also a service that needs to be expanded.

unknown

## Community Needs Assessment: Crawford, Perry, and Spencer Counties

### 11b. What top two recommendations that do not require additional funding would you offer to improve the provision of human services in your county or counties served?

1. Reprioritize programs to focus on building self-sufficiency skills. 2. LHDC is looking at going to a case management model to better address comprehensive household needs. This MAY require additional funding/staffing, but it may also lead away from a "Band-Aid" approach to solving client issues and toward real lasting impacts.

All the recommendations require additional manpower and funding.

Better coordination of services among existing providers; coordinated system of advertising all local job opportunities (that pay a living wage!) on behalf of local employers

Better housing, more affordable housing.

Case management Health coverage assistance

Community involvement and support from local churches

Discussions/training with recipients to help them move toward not needing assistance in the future. Continue the Head Start Program for disadvantaged children.

Encourage churches and local charities to be more involved in community projects

Flexible hours.

get local churches involved with Financial education get word out about local food pantries

I would like to see an emergency shelter set up in our area for people.

Internet services Cable TV

Make the community more aware of services offered.

Mental Health for children and youth Mental health for adults

More donations to food banks

More funding for education. Stricter enforcement of building codes for rental properties.

Not sure

there's no such thing

Unsure

Unsure... we need alot

Volunteer services Churches

What doesn't require funding?

Community Needs Assessment: Crawford, Perry, and Spencer Counties

<b>12a. Are there any services that the CAA is not providing that you think they should be?</b>
Quality Childcare
Counseling
Discussions with recipients to develop a plan so they no longer need assistance.
no
Unsure

<b>12b. What top two recommendations would you provide the CAA to improve service delivery and programming?</b>
Attend community services in the counties they serve to get the word out about services offered.
Better communication to the community regarding services offered.
not sure
Unsure
